

# Package ‘alabaster.schemas’

May 17, 2024

**Title** Schemas for the Alabaster Framework

**Version** 1.4.0

**Date** 2023-11-09

**License** MIT + file LICENSE

**Description** Stores all schemas required by various alabaster.\* packages.

No computation should be performed by this package, as that is handled by alabaster.base.

We use a separate package instead of storing the schemas in alabaster.base itself, to avoid conflating management of the schemas with code maintenance.
